

Product name	Whey powder
Origin	Iran
Specification	The relevant information is stated in the following analysis.
Packing	25 kg bags
Monthly capacity	Approximately 100 tons
Shelf life	2 years
Minimum order quantity	tailored to customer requirements.
Delivery term	A supply capacity of 25 tons every 8 days
Documents available	

CODE:FR-QC-175 Date:		Product identification Enzyme Powder	Palood Parsian Khayyam Food Industries Company
1. Product Name (Brand name) : Palood 2. Health License Number :60/10085 3. National Standard Number :6959-2406			
4- Specifications	4-1. Microbiology / Pathogenic Bacteria: In accordance with standard 2406: Coliforms max 10 - Escherichia negative - Staphylococcus negative - Total count max 100,000		
	4-2 . Chemical according to the 6959 standard: Lactose minimum 61 (Test Method 2450) Protein minimum 10-13 (Test Method 639) Fat maximum 2 (Test Method 1531) Moisture maximum 5 (Test Method 1450) Total ash maximum 9.5 (Test Method 1755) - pH greater than 1.5 (Test Method 2852) Acidity: 18-30 (Test Method 2852)		
	4.3-Physical: Physical: Creamy white color - Texture: Uniform particles without lumps - Taste and odor: Natural without any unnatural taste or odor such as pungent - metallic - soapy - - Foreign materials: Free of any foreign materials		
5. Shelf life: two years			
6. Packaging type: 3-layer paper envelope with polyethylene inner layer - and secondary coating of 3-layer kraft envelope. 7.Weight:(0.25±25)			
8. Distribution (Transportation) Method: Car without refrigerator. Storage: In a cool, dry place - Transport in pallet boxes (More details in the product layout instructions, document code IN-WA-07)			
9. Main Consumer Group: Food industrial units 10. Product Display Method (Storage Conditions): in a cool, dry place. Product preparation method: According to process diagram CH-PR-02
